Aspiring Data Analyst and B.Tech graduate in Artificial Intelligence & Data Science with hands-on experience in SQL, Python, Excel, and Power BI. Skilled in data cleaning, dashboard development, and data visualization, with a passion for turning data into actionable insights.

EDUCATION

- B.Tech in Artificial Intelligence & Data Science
DNR College of Engineering and Technology, Bhimavaram (JNTUK), 2022 - 2026 | CGPA: 7.51
- Intermediate (APBIE)
Sri Chaitanya Junior College, Vijayawada - 68%
- Class X (SSC)
Elim School, Palakol - 88%

TECHNICAL SKILLS

- Programming: Python, SQL
- Data Analysis: Excel, Power BI, Data Cleaning, EDA, KPI Analysis
- Libraries: Pandas, NumPy
- Tools: Jupyter Notebook
- Web Technologies: HTML, CSS, JavaScript

INTERNSHIP EXPERIENCE

Data Science & Data Analytics Intern

SURE Trust (AICTE Approved NGO) | Nov 2025 – Jun 2026

- Analyzed datasets containing 5,000–20,000+ records using SQL, Excel, and Python.
- Tracked KPIs using Power BI dashboards and Excel reports to generate business insights.
- Performed data cleaning, validation, and documentation while collaborating on analytics projects.

PROJECTS

Generative AI-Driven Fake News Detection and Rewriting Framework Using GPT

- Developed a Python and GPT-based system for fake news detection and content correction.
- Improved media verification by automating misinformation detection and content correction.

E-Commerce Data Analytics Project

- Analyzed sales and customer data using SQL, Excel, and Power BI to identify business trends.
- Created visual reports to monitor sales, profit margins, and top-performing products.

HR Analytics Dashboard Project

- Analyzed employee data to identify attrition, workforce, and performance trends.
- Used Power BI to analyze employee data for HR decision-making and retention analysis.

Swiggy Sales Dashboard Analysis

- Cleaned and analyzed 197K+ records using SQL, Excel, and Power BI to identify business insights.
- Monitored KPIs, restaurant performance, and pricing trends through interactive visualizations.

Automated Attendance System – SIH 2025

- Developed a Python-based face recognition attendance system with 90%+ detection accuracy.
- Automated attendance tracking and generated real-time reports, reducing manual effort by 70%.
